Repair cost estimates

- If product falls within the warranty period, return it through the AV dealer from whom the purchase was made. The warranty can be determined by reading the product serial number. From left to right: 2nd and 3rd numbers represent the Year; 4th and 5th represent the month during which the product was manufactured. Most of our products carry a 3 year warranty
- Damage due to improper use, such as ground loops, improperly terminated RJ connectors, or Power over Ethernet (PoE) is not covered under warranty. Your signature authorizes Altinex to repair such damage if found, for a minimum repair charge of \$125, or 25% of the current list price (whichever is greater) on each product found not to be covered by warranty. If the repair charges will exceed this amount, you will be contacted prior to repair for authorization to proceed. (Dealer discount applies to all repair charges.)
- If product is out of warranty, then the product may be shipped directly to Altinex; a minimum repair charge of \$125, or 25% of the current list price (whichever is greater) will apply. You will be contacted if the repair cost will exceed this amount for authorization to proceed. (Dealer discount applies to all repair charges.)
